Plan for the Future Document

Unfinished Requirements:
- 6. The system shall allow users to play against up to 5 other users.
    - Currently the system allows up to 4 players in a match / up to 3 opponents.
    - Currently the system does not allow for playing against other users, only AI opponents.
- 8. The system shall allow users to save the state of their game, should they wish to leave and continue playing later.
- 9. The system shall allow users to continue playing a previously saved game.
    - Currently the system does not allow for the saving or loading of game states.

Unfinished User Stories:
- 6. As a User, I want to modify the rules to use more or fewer decks of cards so that I can play how I want.
    - Currently the system does not allow for users to change the number of decks used.
- 7. As a creative player, I want to be able to modify the rules so that the game is more interesting for myself and others.
    - Currently the system supports the modification of some rules, but far fewer than originally intended.
- 11. As a social player, I want the option of playing against my friends, so I can have fun in a group.
    - Currently the system does not allow for playing against other users, only AI opponents.
- 13. "As a User, I want to organize the cards in my hand to make them easier to look through so that I don't get overwhelmed while playing."
    - Currently the system does organize the cards in a user's hand, but does not allow users to change how they are organized.

Future Development Tasks:

From Unfinished Requirements:
1. Implement Saving and Loading of game states.
2. Increase the maximum number of players to 6, alter game settings accordingly,
    a. i.e. with 6 players either the hand size needs to be decreased or the number of decks used needs to increase.

From Unfinished User Stories:
3. Implement Online Multiplayer
4. Increase the amount of rules users are allowed to change.

       a. Namely, the number of points required to win, the number of decks used in the game.
5. Allow users to manually organize cards in their hand.
